

42nd CCNP Annual Meeting, June 12th-15th 2019, Montréal, QC

Dear Colleagues,

This is a *Call for Symposia* for the 2019 Canadian College of Neuropsychopharmacology meeting to be held in downtown Montreal at McGill University's Thomson House from **June 12th to 15th, 2019**.

Symposia proposals should include: (1) identification of one or two Chairs, (2) a brief synopsis of the symposium theme, and (3) a list of four confirmed speakers, including institutional affiliations plus tentative titles and brief topic summaries.

Each of the 4 presentations will last 30 minutes which allows for a 20-min presentation and a 10 min discussion period. Symposia should focus on topics that are timely and of broad interest to the CCNP membership.

Symposia participants should be from various institutions to emphasize cross-institutional collaboration and should include women, underrepresented minority and/or early career scientists/clinicians. A strong justification is required for proposals in which all participants are from the same institution or in which participant diversity is not included.

An individual **cannot** be listed as a presenter on more than **1 submitted proposal**. The registration fee for speakers will be waived.

All the proposals need to be sent by email to Rachelle Anderson (rmena@ualberta.ca), as it is indicated on the website (<https://ccnp.ca/>).

Symposium revised deadline is October 19th 2018
