

CANADIAN COLLEGE OF NEUROPSYCHOPHARMACOLOGY
COLLÈGE CANADIEN DE NEUROPSYCHOPHARMACOLOGIE

<http://www.ccnp.ca>

OCTOBER 27, 2022 (n.b. all times based on Eastern Time)

OVERVIEW OF EVENTS

10:30 AM	Opening of Meeting
10:45 AM	Opening Remarks – Dr. Cecilia Flores, CCNP President
10:50 AM	Equity, Diversity, and Inclusion (EDI) Survey Results Presentation Rami Hamati, MSc., PhD Department of Cellular & Molecular Medicine, University of Ottawa
11:00 AM	CCNP 2022 Young Investigator Award Presentation Alexander McGirr, MD, FRCPC Department of Psychiatry, University of Calgary <i>“Pharmacological adjuvants to non-invasive neurostimulation”</i>
11:50 AM – 12:10 PM	CCNP Next Generation Awardee Alexandra Barnabe, BSc. Department of Psychology, McGill University <i>“Testing a memory-related intervention to treat addiction”</i>
12:10 PM – 12:30 PM	CCNP Next Generation Awardee Maryia Bairachnaya, PhD Department of Psychiatry, McGill University <i>“Absence of noradrenergic transmission promotes stress-resilient phenotype and facilitates extinction of helpless behaviour”</i>
12:30 – 1:00 PM	Lunch/Break
1:00 PM	CCNP 2022 Heinz Lehmann Award Presentation Bruno Giros, PhD Department of Psychiatry, McGill University <i>“Depression – new mechanisms and new targets for inter-individual vulnerability”</i>
1:50 PM – 2:10 PM	CCNP Next Generation Awardee Rixing Lin, BA Department of Psychiatry, McGill University <i>“SNORD90 induces glutamatergic signaling following treatment with monoaminergic antidepressants”</i>
2:10 PM – 2:30 PM	CCNP Next Generation Awardee Angélica Torres-Berrio, PhD Nash Family Department of Neuroscience and Friedman Brain Institute, Icahn School of Medicine at Mount Sinai <i>“Cell type-specific role of histone modifications in conferring susceptibility to stress across the lifespan”</i>

- 2:30 – 2:45 PM Break
- 2:45 PM **CCNP 2022 Innovations in Neuropsychopharmacology Award Presentation**
Gabriella Gobbi, MD, PhD
 Department of Psychiatry, McGill University
“The psychopharmacology of psychedelics: where the brain meets the mind”
- 3:35 PM – 3:55 PM **CCNP Next Generation Awardee**
Tanya Capolicchio, BSc.
 Integrated Program in Neuroscience, McGill University
“Repeated tetrahydrocannabinol exposure in adolescence disrupts the development of inhibitory control in a sex-specific manner”
- 3:55 PM – 4:15 PM **CCNP Next Generation Awardee**
Caleb J. Browne, PhD
 Nash Family Department of Neuroscience and Friedman Brain Institute, Icahn School of Medicine at Mount Sinai
“Transcriptome profiling of the brain’s reward circuitry in heroin self-administration identifies a ventral hippocampus gene network related to relapse susceptibility”
- 4:15 PM **Keynote Speaker**
Adrian Owen, OBE, PhD
 Professor of Cognitive Neuroscience & Imaging, Western University
“Seeing through brain fog: disentangling the cognitive, physical, and mental health sequelae of COVID-19”
- 5:15 PM Closing Remarks - **Dr. Cecilia Flores, CCNP President**

The Canadian College of Neuropsychopharmacology appreciates the ongoing support of Pfizer Canada Inc. for the Heinz Lehman, Innovations in Neuropsychopharmacology and the Young Investigator Awards.
